

SIFEN ABATE

Full-Stack Developer

Addis Ababa, Ethiopia | +251 9 670 85527

sifaman4@gmail.com | [sifenportfolio.netlify.app](https://sifenportfolio.netlify.app)

### Professional Summary

Self-driven and passionate Full-Stack Developer with hands-on experience in designing and building scalable web applications using the MERN stack. Trained at [Evangadi Tech](#), with a strong foundation in both frontend and backend technologies. Known for being a fast learner, effective communicator, and team contributor. Actively seeking opportunities to join forward-thinking teams where I can contribute to impactful products and continue growing professionally.

### Technical Skills

Frontend: HTML, CSS, JavaScript, React, Axios, Bootstrap

Backend: Node.js, Express.js, MongoDB, REST APIs

Tools: Git, GitHub, Postman, VS Code, Netlify

Soft Skills: Problem-solving, Communication, Teamwork, Remote Collaboration, Fast Learning

### Education

[Evangadi Tech - Full-Stack Web Development Certificate](#)

Addis Ababa, Ethiopia

- Developed and deployed several full-stack MERN applications
- Gained practical experience in frontend/backend development, database design, and API integration
- Collaborated in team-based projects and capstone assignments

## Projects

### [Credit Management App](#)

- Full-stack app for tracking customer debts, payments, and history
- React-based frontend with dynamic forms and real-time balance updates
- Node.js & MongoDB backend with secure API endpoints

### [Warehouse Management System](#)

- Role-based system for inventory, order processing, and worker coordination
- Focused on backend logic, authentication, and workflows
- Designed RESTful APIs and database schemas for efficiency

## Amazon Clone

- Responsive eCommerce UI built in React
- Features product listing, cart functionality, and page routing

## Netflix Clone

- Movie browsing app using The Movie DB API
- Built with React, with focus on clean UI and loading states

### [Evangadi Forum Clone](#)

- Q&A-style forum with user authentication
- Built with React and React Router; supports dynamic routing and forms
